

Anglers in Full Force After the Finny Tribe

OVER 200 VISITORS ACCEPT "FREE FISHING INVITE"

The invitation extended by the Anglers' Club, at Essex Ave. and the Boardwalk, for "five free fishing days" last week brought over two hundred fishermen to the Pier, who enjoyed the time spent there in the piscatorial art.

"Mamie" Weigman has elected himself bartender of the Club, and leave it to "Mamie" to see that lots of "collar" is on the mugs.

Henry Asam and family, of 14 So. Melborne Ave., Ventnor, are entertaining Mrs. William Barker, of Smith Falls, Ontario, Canada.

One of the busiest men around the Club House is George Hooker, who is busy refurbishing the Club house. George looks well in overalls.

Sam Pierce has taken over the duties of pier-master again.

On Saturday, Willis Johnson caught a 14½ pound striped bass from the stone pile at Douglass Avenue.

On Sunday, at Fredericksburg Avenue Jack Haley caught two eels, weighing 6 pounds each.

"Bernie" Levy, without a line and rod, caught two kings about a week ago and was disappointed his name wasn't on the list. He used another fisherman's implements.

Jack Auginblick says business is good at 7807 Atlantic Avenue. Jack sells fishing tackle, etc.

Joe Roberts and Frank Jacobs went 20 miles off Tuckerton and got 17 blues, averaging 6 pounds each.

Every Wednesday afternoon at 2.30 o'clock, a card party is held in the lounge of the Club for members' wives and women friends.

Peter Glick, Jr., caught a 4½ pound weakfish in the Bay last Saturday. Pete is 12 years old.

Johnson Has Record Cast.

The real thrill of the afternoon was provided by Willis Johnson, of the Margate City Fishing Club. Willis thrilled the spectators when he made the longest cast in 21 years of cup competition, with a heave of 479 feet 7 inches. It was a new record. The old record was held by Lou Hindley of the Trenton Rod and Gun Club, who threw the lead weight 467 feet. It was made in 1935.

Johnson, who is coached by H. W. Shaner, believes in constant practice. He used a semi-sidewiping motion to get off those long throws. Despite Johnson's brilliant performance, his team, Margate City, could only finish in third place.

Weakies and Kingfish Biting Best at Pier

According to Jack Auginblick of the Anglers' Club, fishing at the Pier, Essex Ave. and the Beach, is still good, and will continue so, if the weather remains favorable.

During the past week, about 800 fish were caught from the pier, most of which were kings, weakies, and a few perch. Among those pulling in the greatest number are: Harry Gardner of Philadelphia, Gus Blaufuss of Pleasantville, and William Moore of Margate.

Fishing Improves at Anglers' Pier After Poor Week-end Catch

Fishing is again picking up after one of the poorest week-ends on record. Saturday and Sunday, owing to the cold water, found a scarcity of fish at the local pier. Yesterday morning the weakfish were reported running again with a few large ones being landed, one being taken by M. B. Taylor weighing 4½ pounds.

Saturday and Sunday the water temperature was down around 60 degrees. With the warming of the water the next few days came a noticeable improvement in fishing, Tuesday and Thursday being the best days, the water being over 70 degrees both days.

Members of the Club reported quite a number residents took advantage of the free day's fishing offered by the Club, many fished the poor days and were a bit disappointed.
